

# CALL OUT for HELP @ OCCII

## Monday 24 JULI - Friday 11 AUGUST

From 24 July until 11 August OCCII will be under construction.  
Small repairs here and there, some stuff needs to get painted, etc.

OCCII can use lots of helping hands! :-)

We are especially looking for **plumbers, electricians, carpenters & painters**.

There is plenty to do for everyone, even if you're not a super "do it yourself" person.

The **working days** are from **Monday to Friday from 09:30 to +/-17:00**.

If you want to help **please mail** to [volunteer@occii.org](mailto:volunteer@occii.org) or let us know by Facebook if you would like to help us out during the summer break to make OCCII shine again!

What do you get in return?

- There will be lunch, and while working there will be plenty of coffee/tea/juice.
- After a hard day of work there is always the well deserved 17:00 beer (or something non-alcoholic)!
- And of course the eternal fame!

### TO DO LIST (sorted by location):

#### Upstairs:

- Floor needs a paint job.
- Cabinets storing/re-layout.

#### Kitchen:

- Build a vent in the kitchen so the refrigerator can get rid of the heat.
- Repair gooseneck underneath sink, it's leaking.
- Boiler repair, new plug.

#### Stairs:

- Paint stairs.
- Update painted walls.

#### Backstage:

- Make soundproof door.
- Check hole in wall between venue and loft.
- Move amplifier ventilation.
- Build/keep/organise free space for musical instruments.

#### Bar:

- Display/merchandise-corner (record/zine/poster crate & OCCII t-shirts).
- Refrigerator sealing (magnetic strips), or new doors or new fridge?
- Big walk in fridge door hinge, broken?
- Replace defective beverage holders.
- Make an alarm light.

#### Room:

- Stage needs two layers of varnish.
- Close hole in wall on stage.
- Paint the benches along the wall black.

#### Technology / Equipment:

- Technique corner set up again/all technique & electricity in this cabinet.
- Clean everything by blowing out using air.
- Repair cables and other equipment if needed.

#### BHV:

- Retrace what group for escape route designation is.
- Box/buttons fire money panel.
- Emergency lighting & escape route lights

#### WC:

- Skirting boards/kick plates on the outside wall (for cleaning).
- Repare sliding door in men's toilet.
- Redo the wallpaper in the men's toilet.
- Fix the tap in the men's toilet.
- New sink in the ladies toilet.

### TO DO LIST (sorted by kind of work):

#### Carpentry:

- Ventilation grille at the top of refrigerator in the kitchen.
- Another sound proof door in the hallway next to the stage.
- Hanging up the last 2 sound panels.
- Make shelves in the technical room, so we can store stuff nicely.
- Make a display/merchandise-corner (record/zine/poster crate & OCCII t-shirts).
- Skirting boards/kick plates in the toilet.
- Repare sliding door in men's toilet.
- Repair the front door.

#### Paint work:

- Stage needs to be painted two times.
- Paint the upstairs floor two times.
- In the smoking area the dirty foot prints on the wall need to be painted.
- Paint the bar two times.
- All the black paint can use one layer in OCCII.

#### Electra:

- New plugs for the kitchen boiler (if leakage is fixed).
- Make a TL/work light at bar, so you can see when cleaning.
- Dust off and clean all the equipment.
- Solder the cables.
- Check the emergency lighting and escape route lights, possibly replace the light.
- The led lights in the windows, replace or fix it.
- Make a new alarm light.

#### Plumber:

- New sink in the ladies toilet.
- Fix the tap in the men's toilet.
- Repair gooseneck underneath sink, it's leaking.

#### Other jobs:

- Hole in the wall between stage and backstage - sound proofing.
- New ventilation for cooling channel amplifier.
- Ventilation in hall makes too much noise, figure out why & how to fix it.
- New refrigerators at the bar, large cell repair.

#### Cleaning up:

- Clean the front door of OCCII, with a hose.
- All the drains.
- All the vents.
- The whole OCCII... ;-)

**Thanx a lot in advance!**
